SUMMARY

Full Stack Software Developer with expertise in front-end and back-end development. Proficient in building scalable web applications using the MERN stack, integrating RESTful APIs, and ensuring responsive, user-friendly interfaces. Passionate about delivering clean, efficient, and maintainable code across all layers of development.

EDUCATION

KALINGA INSTITUTE OF INDUSTRIAL TECHNOLOGY , Bhubaneswar, Odisha	April 2025
B.Tech in Computer Science & Engineering	75.7%
M.M. PUBLIC SCHOOL , Pitampura, Delhi	March 2021
Class 12 th (CBSE)	82%
SACHDEVA PUBLIC SCHOOL , Pitampura, Delhi	March 2019
Class 10 th (CBSE)	77.6%

SKILL

- Programming Languages – C, C++, Java, HTML, CSS, JavaScript, TypeScript, SQL
- Frameworks/Technologies – React.js, Node.js, Express.js, Redux, Tailwind CSS, MySQL, MongoDB, PostgreSQL, REST APIs
- Developer Tools – Git, GitHub, VS Code, IntelliJ IDEA
- Core Subjects – Data Structures and Algorithms, Object Oriented Programming, Database Management System, Cloud Computing

PROJECTS

AI SaaS Platform [QuickAI]	October 2025
• Developed a full-stack AI SaaS platform using the PERN stack with Clerk for secure user authentication and premium subscription plans.	
• Integrated OpenAI API and Clipdrop API to generate text and images in real time within a responsive, scalable application.	
• Tech Stack: HTML, Tailwind CSS, JavaScript, React.js, Node.js, Express.js, PostgreSQL, OpenAI.	
• Link: https://github.com/PriyanshuSinghChauhan/QuickAI	
Chat Application [QuickChat]	August 2025
• Built a full-stack MERN chat application with Socket.IO for real-time messaging, private chats, and JWT-based authentication with role-based access.	
• Managed MongoDB data, integrated frontend-backend via REST APIs, and deployed on Vercel for a responsive, scalable experience.	
• Tech Stack: HTML, Tailwind CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, Socket.IO.	
• Link: https://github.com/PriyanshuSinghChauhan/chat-app	
E-Commerce Platform [Forever]	December 2024
• Developed a responsive full-stack MERN based e-commerce platform with secure JWT-based user authentication, product management, cart, and payment integration, deployed on Vercel for a live, responsive experience.	
• Integrated frontend and backend with REST APIs and implemented role-based access for customers and admins.	
• Tech Stack: HTML, Tailwind CSS, JavaScript, React.js, Node.js, Express.js, MongoDB,
