PROJECTS

Bank Management System (Java, Swing, OOP)

- Designed features for account creation, deposit, withdrawal, and balance inquiry using a Swing-based GUI, improving user experience.
- Implemented data management with collections (HashMap) to simulate account operations.
- Applied robust input validation and error handling to ensure secure transactions.
- Enhanced code modularity through the use of object-oriented programming (OOP) concepts.

LANGUAGES, KNOWLEDGE, SKILLS & ABILITIES

- HTML, CSS, JavaScript
- React JS
- Node JS
- Express JS
- AWS
- C
- Java
- Python
- SQL
- MongoDB
- GitHub

CERTIFICATES

- Google Data Analytics Certificate
- Introduction to Cloud Computing on AWS for Beginners

EDUCATION

Computer Science & Engineering | KIIT University, Odisha	73.5% | Present
XII (CBSE) | M.M. Public School, Delhi	82% | 2021
X(CBSE) | Sachdeva Public School, Delhi	77.6% | 2019
